One Does Not Have To Pay A Lot Of Money To Drink Well!

Best Buys – 22 wines under \$20

At one of the seminars at [Vino 2010](#) [2], the person next to me said, “It is impossible to get a good Italian wine for under \$20.00.” This got me thinking. Often, maybe too often, I write about very expensive and very old wines, but I do not drink these wines every day. I like expensive older wines, but the price of a wine does not impress me. I would rather drink a \$12 traditionally made wine than one that costs 20 times as much and tastes like every other wine. It is the style of the wine that is important to me -- not the price.

Here is a list of 22 wines all under \$20 that I would drink instead of a number of more expensive wines. Remember you do not have to pay a lot of money for wine to drink well.
